Location: **Uttara, Dhaka, Bangladesh**

Focus: **Woven, Knitwear & Outerwear**

Services: **End-to-End Sourcing & QA**

Website: **www.vestesmore.com**

COMPANY PROFILE

WHO WE ARE

Vestes & More is a premier Bangladesh based apparel buying and sourcing agency. We bridge global garment brands, retailers, and corporate buyers with vetted manufacturing partners across Bangladesh. We act as an extension of your procurement team on the ground managing everything from design interpretation and fabric sourcing to inline quality control and final shipment export.

Our Core Mission

To provide global apparel buyers with a seamless, transparent, and quality-driven sourcing ecosystem in Bangladesh, ensuring competitive FOB pricing without compromising on ethical standards or workmanship.

Primary Product Capabilities

Woven Apparel

Chinos, Cargo Pants, Denim Trousers, Utility Bottoms, Casual & Dress Shirts.

Knitwear

Basic & Graphic T-Shirts, Polo Shirts, Hoodies, Sweatshirts, and Fleece Tops.

Outerwear & Workwear

Padded Jackets, Windbreakers, Rainwear, Softshells, and Uniforms.

Operational Reach

We actively serve European, North American, and emerging retail markets, delivering customized sourcing solutions tailored to each buyer's market compliance and quality standards.

WHY PARTNER WITH US

OUR VALUE PROPOSITION

We solve the key challenges international buyers face when sourcing garments overseas: price transparency, quality control, and timely delivery.

1. Transparent Cost Optimization

We provide open BOM costing (yarn, fabric, trims, CM, and overheads). You get true market pricing without hidden margins or broker markups.

2. On-Site Quality Ownership

Our dedicated QA/QC technicians are stationed directly on factory floors, executing inline checks and pre-shipment AQL 2.5 final inspections.

3. Audited Supplier Network

We work strictly with manufacturing facilities fully audited for BSCI, OEKO-TEX, SEDEX, and structural/fire safety standards.

4. Agile Order Execution

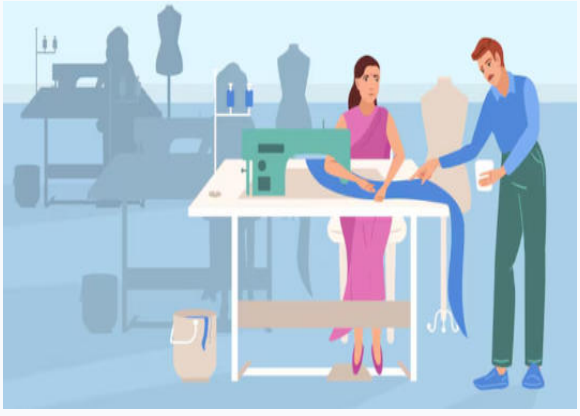

Whether managing rapid proto sampling or executing multi-thousand unit commercial orders, we offer operational flexibility.

End-to-End Milestone Visibility

Our merchandising team provides weekly Critical Path Reports (T&A updates), ensuring full visibility from yarn procurement to port departure.

OPERATIONAL SCOPE

END-TO-END BUYING HOUSE SERVICES

SERVICE DOMAIN	KEY OPERATIONAL ACTIVITIES
1. Product Development & Sampling	• Tech pack review and pattern interpretation • Local and imported fabric/trim sourcing • Proto, Fit, Size Set, and PP Sample creation
2. Merchandising & Costing	• Component-level price negotiations • Bill of Materials (BOM) management • Production line booking & T&A calendar tracking
3. Vendor Audit & Selection	• Matching order technicality to factory machine capability • Verification of BSCI, OEKO-TEX, and WRAP credentials • Factory capacity & financial stability evaluation
4. Quality Assurance (QA/ QC)	• Raw material GSM, shade, and shrinkage testing • Pre-Production Meetings (PPM) prior to bulk cutting • Inline sewing monitoring and Final Inspection (AQL 2.5)
5. Export & Logistics	• Shipping document preparation (BL, Commercial Invoice, Packing List) • Customs clearance and forwarder coordination • Container loading verification

PRODUCT PORTFOLIO

Garment Treatments & Customizations

Enzyme Wash · Stone Wash · Bleach Wash · Acid Wash · Garment Dye · Pigment Print · Rubber Print · 3D Puff Print · Embroidery · Appliqué

PROCESS ARCHITECTURE

ORDER EXECUTION WORKFLOW

Our structured 6-phase critical path ensures error-free execution from initial tech pack receipt to final port delivery.

1

Tech Pack & Costing

Tech pack evaluation, yarn/trim sourcing, and initial open costing submission.

2

Development & Sampling

Proto sample creation, fit adjustments, and buyer approval process.

3

Order Confirmation

L/C opening / Deposit, final BOM locking, and raw material booking.

4

PP Sample & Line Prep

Pre-production sample sign-off, raw material lab testing, and PPM alignment.

5

Bulk Cutting & Production

Inline quality checks during sewing, washing, finishing, and packing.

6

Final AQL & Export

Final random inspection (AQL 2.5), customs booking, and container shipment.

KEY TERMS

OPERATIONAL PARAMETERS

We maintain clear lead-time expectations and flexible minimum order quantities to support both growing brands and established volume retailers.

Lead Time Benchmarks

Sampling Lead Time:
7 – 10 Working Days
(Using available standard fabrics/trims)

Bulk Production Lead Time:
60 – 120 Days
(From L/C receipt & PP approval based on materials origin)

Minimum Order Quantities (MOQ)

CATEGORY	STANDARD MOQ (PER STYLE/COLOR)	NOTES & FLEXIBILITY
Knitwear Tops	1,000 pcs	Flexible for multi-colorway solid fabrics.
Woven Bottoms / Denim	1,200 pcs	Subject to fabric weave minimums.
Outerwear & Jackets	800 pcs	Depends on specialized trim availability.

Payment & Shipping Terms

Payment Terms: Irrevocable L/C at sight / TT / Bank Transfer.
Shipping Terms: FOB Chittagong / FCA Dhaka / CIF Port of Destination.

QUALITY STANDARDS

QUALITY CONTROL & COMPLIANCE

Quality assurance is embedded at every phase of production rather than left to a final check.

4-Point Fabric Inspection

All raw fabrics undergo 4-point system checking for surface flaws, shade variation, GSM tolerance, and dimensional stability upon arrival at the factory.

Inline Sewing Audit

Our QC inspectors monitor needle lines daily to ensure correct seam construction, tension, measurement compliance, and stitch density.

AQL 2.5 Final Inspection

Pre-shipment inspection is conducted strictly following ISO / ANSI AQL 2.5 standards, verifying measurements, packaging, and labeling.

Social Compliance

We partner exclusively with facilities holding valid BSCI, SEDEX, OEKO-TEX, or WRAP certifications, ensuring safe, ethical working conditions.

Sustainable Sourcing Options

We can source certified sustainable materials upon request: **GOTS-certified Organic Cotton**, **Recycled Polyester (GRS)**, and **BCI Cotton**.

VISUAL SHOWCASE
